User Dashboard

Test Case	Description	Expected Result
Data Display	Verify that all expected data is displayed on the dashboard.	All data elements are displayed correctly.
Navigation Links	Click on navigation links and verify redirection.	User is redirected to the correct pages.
Update Profile	Update profile information and save changes.	Profile is updated successfully, and changes are reflected.
Logout	Click the logout button.	User is logged out and redirected to the login page.
Responsive Design	Resize the browser window and verify layout.	Dashboard layout adjusts correctly for different screen sizes.
Error Handling	Simulate an error in data loading.	Appropriate error message is displayed on the dashboard.
User Interaction	Interact with widgets (e.g., charts, tables) on the dashboard.	Widgets respond correctly to user interactions.
